

PrideComplete

Local Service, Nationwide Coverage

Pacific Pride and Wright Express have combined the best features of our products to create a Universal Card program providing the local service that fleets are searching for, with the convenience of nationwide acceptance at over 180,000 retail sites and 45,000 service merchants.

The PrideComplete card is the ultimate in control and convenience.

With PrideComplete, you decide what purchases to monitor or prevent on a single card or on multiple fleet cards. You can make controls as granular or as open as you need and they can be custom tailored to varying purchasing behavior throughout your organization.

The right mix of purchase controls can help you reduce unauthorized fueling and other unwanted purchases. For instance, you can control dollar-spend at the transaction level by time frame such as day of week and time of day, and by product type including fuel, oil/fluids, parts/service, roadside assistance, quick lube and general merchandise. Our system checks product codes against your profile as soon as a transaction occurs. If it does not conform to any of your pre-set limits, we'll decline the transaction.

Use your PrideComplete Card at Pacific Pride sites and take advantage of the added controls, time saving and negotiated pricing benefits cardlocks bring you. However, if your drivers travel outside of the Pacific Pride footprint, your PrideComplete Card will be accepted at more than 90% of retail fueling locations in the U.S. Doing business in Canada? PrideComplete Cards are welcomed at Esso, the country's largest network of service stations with about 2,100 locations.

The PrideComplete Universal Card is accepted at these and other fine petroleum merchants.
